Super-charged: Canon's Digital IXUS 960 IS and Digital IXUS 860 IS

Hi-res versions of these and other images can be downloaded from www.canon-erc.com/gen

Canon launches two Digital IXUS models for tech-obsessed style junkies

The titanium-crafted Digital IXUS 960 IS and wide-angle Digital IXUS 860 IS are designer compact cameras with exceptional imaging technologies. Equipped with Face Detection Technology and Canon's total anti-blur solution, both cameras make it easier than ever to capture photo album favourites. Large, clear PureColor LCD screens make it simple to frame up shots, and easy to share just-taken images.

With a range-leading 12.1 Megapixels, the Digital IXUS 960 IS grabs enough detail to make poster-size prints for the home and beyond. Housed in a sophisticated titanium body, this is a camera with an exclusive look and feel that sets it apart from the competition.

The Digital IXUS 860 IS is built to fit more into every shot. Its 3.8x zoom wide-angle lens gives a wider view for large party shots, holiday panoramas or architectural wonders. And with Canon precision optics at the camera's core, every image benefits from exceptional clarity.

Perfect imaging – in every situation

Canon's latest technologies deliver great people shots as standard.

Face Detection Technology detects up to nine faces in frame and automatically makes adjustments for optimal results – free from blur, overexposure and the dreaded "ghost face" effect when using flash. Red-eye Correction in playback

digitally corrects images for flawless people shots. A lens-shift type optical Image Stabilizer works with high ISO features to fight all types of image blur. Movie modes include Long Play – for high quality clips that eat up less memory – and fun Time Lapse movies. Optional waterproof cases can be added for swimming, snorkelling or scuba diving trips.

Features:

Digital IXUS 960 IS

- Titanium body with Touch Control Dial
- 12.1 Megapixels
- 3.7x optical zoom with optical Image Stabilizer
- 2.5” PureColor LCD and optical viewfinder
