EOS MOVIE plug-in for Final Cut Pro

London, 8th February 2010 – Canon today announces the development of a plug-in that will enable quicker and easier editing of EOS MOVIE footage in Final Cut Pro. A free Beta release of the plug-in will be available to download for testing and evaluation in March 2010.

‘EOS MOVIE Plugin-E1 for Final Cut Pro’ is being developed to provide an even smoother workflow for EOS MOVIE users who edit using Apple’s Final Cut Pro software suite. The plug-in will enable the ‘log and transfer’ of video footage from Canon’s EOS 5D Mark II, EOS 7D and EOS-1D Mark IV Digital SLR cameras – all of which offer full 1080p HD video recording.

The plug-in will convert EOS MOVIE footage to Apple’s high quality ProRes 422 codec at approximately twice the speed of Apple’s standard conversion. Additionally, users will also be able to add timecode, reel names and metadata to footage quickly and easily – further enhancing the experience of EOS MOVIE users when editing their footage.

About Canon Europe

Canon Europe is the regional sales and marketing operation for Canon Inc., represented in 120 countries and employing over 11,000 people across Europe, the Middle East and Africa (EMEA).

Founded in 1937 with the specific goal of making the best quality camera available to customers, Canon’s tireless passion for the Power of Image has since extended its technology into many other markets and has established it as a world leader in both consumer and business imaging solutions. Its solutions comprise products, ranging from digital compact and SLR cameras, through broadcast lenses and portable X-ray machines, to multi-function and production printers, all supported by a range of value added services.

Canon invests heavily in R&D to deliver the richest and most innovative products and services to satisfy customers' creative needs. From amateur photographers to professional print companies, Canon enables each customer to realise their own passion for image.

Canon believes that considering the interests of society and the environment is an integral part of good business practice. This is embodied in its corporate philosophy Kyosei - 'To live and work together for the common good'.
